Coach Profile

Jeffrey Wotherspoon

Jeffrey is a young and inspired coach who participated in the first ‘MOE Coach Training Course for Young Leaders and Entrepreneurs’.

He is very passionate about facilitating the rehabilitation of offend behaviour and aiding progression of those from a disadvantaged background.

Having a similar experience himself to many of the people he works with Jeffrey wishes to use his coaching skills to aid such client groups in defeating the poverty mind-set and helping them to achieve their best through a self-directed learning process.

Jeffrey believes through coaching he will be able to inspire and build the self-esteem of the such clients and that they will take a greater responsibility of their lives and begin to view themselves as worthy and capable of a greater standard of living and in so doing achieve their destiny.
